## SIGNIFICANT CONTRIBUTION OF PRACTICAL IMPORTANCE

- Constructed Innovative Water Harvesting Pond (first of its kind in the State) at KVK Kaithal farm without investing public money. **Impact:** Complete protection from flood, texture and structural change in soil, improvement of farm paths, improvement in underground water quality and earth work around office building.
- The national problem of paddy straw burning which was matter of great concern for parliament, state legislation, district administration and scientist etc. was converted into a **noble vocation**. Farmers of the district are getting **200 crore rupees additional income per year**. The clouds of smoke generated due to straw burning in the months of September, October and November have been faded. More than **8000 people** are getting direct employment. The vocation is flourishing in 300 acres of leased marginal land where the quality of land has also been improved.
- Whole KVK farm brought under cultivation. Produced 6000 qtls. Quality seed at KVK Farm. Generated **Rs.1.5 crores** revolving fund by sale of seed, planting material and agro forestry trees which is highest in Haryana and Zone-I during my tenure.
- **Gohran** village of the district was developed as first **Madhu Gram** of the country and Rs. 2.72 crores additional income was generated through sale of honey which has completely transformed the financial, educational and social status of the villagers.
- The Pragatisheel Kisan Club was established in 2002 and monthly meetings are being held continuously on 10<sup>th</sup> of every month for brainstorming of farmers.
- **Six National Level (ICAR) and Three State Level awards (highest in zone)** have been won by the contact farmers on the basis of documents prepared by me.
- Large scale adoption of resource conservation technologies viz. Zero Tillage in wheat (saving of Rs. 30 crores/annum in the district), laser land levelling (water saving 30-40%), inter cropping with sugarcane (60% more income), direct seeding of rice (saving of Rs.7500/ha), Integrated pest and disease management (saving of Rs.31.5 crores in the district) and agro forestry (Rs.50000 /ha/annum additional income).
- Director of Extension assigned the difficult task of land transfer for establishing **KVK Kaithal, Kurukshetra and Sonipat**. The gram Panchayats were apprised of the importance of KVK and convinced them for transfer of land. The land was transferred successfully with the liaison of district administration and higher administrative officers of government in due course of time. **The Director of Extension Education CCS HAU Hisar gave Appreciation Letter for completing this difficult task.**
- Best linkage with print and electronic media has enabled the KVK to reach all the farm families of 273 villages of the **district with 250 news coverage and 50 TV News annually.**
- Scientific aptitude created among school children through Children Science Congress has brought laurels to the district by winning **several National and State awards.**
- **Comprehensive District Agriculture Plan (C-DAP)** of Kaithal district under Rashtriya Krishi Vikas Yojana was prepared by me. The C-DAP was appreciated by Deputy Commissioner

Kaithal, State Government and Planning Commission and this was implemented in the entire state.

- I organized **Kisan Pathshala of 3 months duration** in collaboration with “United Phosphorus Limited” under Public – Private Partnership mode. Fifty progressive farmers of the district were imparted trainings on all aspects of Agriculture including allied Vocations. Scientists from KVK, Regional Research Stations, CCSHAU and ICAR Institute delivered scientific lectures in the training. Lectures were compiled and a book was published. Vice Chancellor CCSHAU Hisar, Dr. J.C.Katyal and Chairman UPL, Dr. R. D. Shroff declared it as the best Kisan Pathshala of the country. **KVK was awarded Certificate of Recognition by the UPL.**
- Various dignitaries viz. Governors, Members of Parliament, Ministers and Parliamentary Secretary, Deputy Director General, Vice-Chancellors, QRT Members visiting this centre have appreciated the work of KVK.
- Vocational Trainings were given to 9500 youths for adopting various vocations in 142 training programmes. About 92 commercial dairy units, 712 small dairy units, 1504 bee units 353 vermi-compost units and 51 mushroom production units were established giving employment to 4000 youths.
- **Under SC/ST project 600 rural women** and youths were given 30 trainings of 5 days duration (20 participants per training) on Cutting and Tailoring, Dairy Farming, Spray Technology under State Funded Projects in which self employment assistance were given in the form of cattle feed, mineral mixture, medicines, Sewing machines, dress material, spray pumps, bicycles etc. for earning and improving their livelihood
- A comprehensive training for scientific good agricultural practices was given to 400 literate youths. These youths are participating in all the major activities and are working as Village **Kisan Rakshak** in their respective areas
- I was elected as **Vice-President and Executive Member** of CCS Haryana Agricultural University, Teachers Association and solved the pending issues of teachers and non teachers with the liaison of State Government.
- **Sixteen Pashu Vigyan/ Kisan Melas** were organized under my leadership. In each these melas 7000-8000 farmers participated from Punjab, Haryana and UP States. The different live demonstrations and different agro industrial exhibition, clinical camps, buzz session were the main features of these melas. Innovative and progressive farmers were awarded in these melas.
- During my tenure as Programme Co-coordinator, KVK, Kaithal was developed into **most popular and farmer friendly institution** in the state of Haryana and Zone-I. On an average, 50-100 farmers visited KVK per day to get solution of their problems regarding livestock production, agriculture and allied vocations.

## Liaison with Districts officials and allied departments:
