

MESSAGE

From core of my heart, I wish you all a very happy and prosperous new year. If we look back, the year 2018 was a relatively stable year. With the concerted efforts of you all and with the support of government, we were able to start Regional Centres. Construction of College of Dairy Science and Technology, Vice-Chancellor's Office and Administrative Block at new campus is in full swing. Eighteen of our graduates got JRF. This is a great achievement and reflects relentless efforts and dedication of our students and faculty. In the changing and competitive world, I would encourage students to try new innovative activities through "Do Something Different" during their stay at LUVAS. Last year, LUVAS was ranked 2nd among the Veterinary Universities in the country and we must strive hard to reach the pinnacle. A number of vacant posts in the University were filledup and we are in the process to appoint more in near future. As a University, we have absolute confidence in our capability to continue to deliver high-quality research and innovation. Under Rashtriya Krishi Vikas Yojana -RAFTAAR, seven projects worth Rs. 7.36 crores were sanctioned by the Government to LUVAS in 2018.

I would like to thank each and every one of you for your hard work, passion and the part that you have played in our University's success. I look forward to your continued support as, together, we take LUVAS into 2019. The year ahead will bring its own challenges, but I am sure that by working together and keeping focussed on our priorities, we can realise our ambitions.

The New Year is the beginning of new ventures and projects. Let's continue to see success as we did in 2018. I along with my wife wish you and your family a very happy and prosperous 2019

(Gurdial Singh)
Vice-Chancellor
